Tagline Figures are a creation by Michael Tartaglia – All Rights Reserved

Tagline Figures (TFs) reported are for last three races (scratches, elongated distances, and finishes without a clocked time excluded), according to Trackmaster PPs. Negative TFs are noted by a “-0-“ figure. Top Last Out and Average are calculated to a tenth of a TM. All figures are made to be correct at time of publishing – figures can change after the fact based upon updated information regarding a track and its speed during that time.
